

HOW IT WORKS.

It is reported in Dayton that the Douglas mill will soon be shut down for good, as the discount on silver is so great (over 25 per cent.) that it will no longer pay to work the low grade tailings on the river. The discount and the expenses of refining, express, etc., is estimated at nearly 30 per cent. This is the most outrageous piece of business that has ever been consummated by the chief executive of a nation. Not only in this place, but in all parts of the Pacific Coast States, is this injury felt. Every silver producing State and Territory feels it more directly, but the whole United States is today in a state of poverty, simply because there are a few influential money men at Washington who are not in favor of the free coinage of silver. And still you will hear the Democrats howling about what they are doing for the good of the country. Take it home to yourselves and ask yourself this question: "Why do you vote the Democratic ticket?" Probably you will say, "well, my father was a Democrat, therefore I am one." What kind of a reason is this? It was well known that Cleveland was an anti-silver man before he was elected, and still Democrats who are in favor of free coinage voted for him because he was a Democrat. They took the bread and butter from their own mouths, for the sake of placing a man at the head of our government who was more of a friend to foreign countries than he was to his own. Will they do it again? We think not. Voters in Nevada have had a taste of the thing long enough, and will, it is believed this Fall send to the Senate and Congress men who are in favor of silver and who are intelligent enough to explain matters in a manner that will show the people what the country will come to if the system of free coinage of silver is not adopted. Let everybody consider the facts and vote accordingly.

TRUE FISSURE OBSERVATIONS

The True Fissure publishes the following:

There are rumors to the effect that one of the most important sections of the ring slate will be badly broken before the meeting of the Republican State Convention.

Hon. William M. Stewart has opened his Senatorial campaign in the vigorous manner which characterizes all of his actions. In company with Secretary of State Dorman he is making a splendid canvass in the Eastern portion of the State, delivering sound Republican talks wherever he goes. He is a man of ability and an interesting speaker. Unlike a certain other candidate he is not afraid to talk to his friends and neighbors. As the campaign advances and the people get better acquainted with him his candidacy will continue to grow in strength.

C. E. Laughton is an active candidate for re-election to the Lieutenant Governorship. As president of the State Senate he was universally liked for his urbanity and fairness, and respected for the able and impartial manner in which he presided over the deliberations of that body; as acting Governor he has always been independent and has shown evidence of the possession of superior executive ability; as State Librarian he has, through his subordinates, conducted the affairs of that branch of the State Government with notable courage and efficiency; as Adjutant General he has ever labored to promote the best interests of the State militia and is one of the most popular officers in the State.

Sound Advice!

Abraham Lincoln's advice to working men: "That some should be rich, shows that others may be rich and hence is but encouragement to industry and enterprise. Let not him who is homeless pull down the house of another, but let him labor diligently and build one for himself, thus by example assuring that his own will be safe when built."
